

Recommended Ingredients List

The following ingredients have been used with the Picnic Pizza Station and are a recommended starting point for sourcing compatible ingredients.

The Picnic Pizza Station uses your recipe and ingredient amounts for a consistent pizza every time. Our ingredient testing covers varying amounts of toppings for different crust sizes. Because of the customized nature of each unique recipe, you may see some variability (10-20%) of ingredient dispensing depending on crust size and ingredient portion used. Your Customer Success Manager can offer additional assistance in ingredient and recipe planning.

Dough

The Picnic Pizza Station works with circular crusts 12-16 inches (30-40 cm) in diameter. Dough should have a consistent thickness, at a maximum of 2 inches (5 cm), including pan or screen. Dough can be frozen, parbaked, hand-tossed, machine-pressed, gluten-free—as long as it meets the size guidelines, it should perform well. This list includes popular brands that have been tested in our demo kitchen.

| DOUGH | SUPPLIER | SKU |
|--|-----------------|-----------------|
| Rich's Dough Pizza Presheeted Self Rising, 14"- 16" | Sysco, US Foods | Various |
| Rich's Dough Pizza Presheeted 16" Proofed & Bake-ready | Sysco | 233235 |
